

Free Online Community

if you could design an online directory for your organization, what would it look like?

Safe & Secure

- Every member has a unique user name and password
- Members can safely access and update their own information
- You and your families control what is displayed—even on the roster

EASY & POWERFUL

- User-friendly design makes it easy for everyone
- Easy to add or delete members
- Add individual profiles within a family profile listing
- Advanced search capabilities
- Create a "MyGroup" and birthday list
- Ability for members to request an updated image and access online photography scheduling
- Customize by adding a banner, image, and message
- Built-in email links and ability to send broadcast messages
- Print up-to-date pictorial directory or roster any time
- Identify and download member profile changes by date
- Export roster information to specific church management software
- Site usage statistics – including those requesting new portraits
- Site access through a standard link or organization's website
